

## Transition 2020 – Meet the Team

**Mr R. Bone**  
Teacher of Maths/Form Tutor

### WHAT WOULD YOU CONSIDER TO BE THE BEST ASPECTS OF BEING A SIXTH FORM TUTOR?

Without a doubt, the best part of being a sixth form tutor is giving advice to help guide students with their career paths. I've learnt about so many different careers through these conversations with students and I get a buzz out of the mature, honest and refined conversations I have with all members of my form class.

### WHAT DO YOU TEACH?

The only subjects worth teaching: Maths and Further Maths.

### WHAT ARE YOUR HOBBIES?

As a dad of two (soon to be three), time spent on my hobbies is very sparse. When I do get time to myself, I love watching/playing most sports, going for a run or watching movies and documentaries.

### WHAT ADVICE WOULD YOU GIVE TO YOUR Y12 SELF?

Mr Gratton is always right (he was my Director of Sixth Form too!). Apart from that, start as you mean to go on, make the most of your free time in college and never be afraid to ask your teachers for more help – that's what they're there for!

### FAVOURITE GROUP (MUSIC)

Anything rock-based is fine with me. My favourite bands seem to change depending on what my current mood is, but bands such as Foo Fighters, Stereophonics and Bloc Party appear regularly on my playlist. I'm also very partial to a bit of classic rock: you'll often find me air guitaring to a bit of AC/DC, Queen or Dire Straits.
