

How to get
organised-
planning a
revision
timetable

Before anything else, preparation is the key to success...

- Your **MUST** plan your revision
- It simply will not work if you just pick up random books on random days and hope for the best
- Planning will require no more than an hour of your time but it will reap rewards later on
- You need three things to plan
 1. A **blank revision timetable**
 2. A **list of topics in each qualification** you study
 3. A **blank piece of paper** to plan out your priorities

Make your priorities a priority

- Divide your subjects up into three groups
- **Group A**-those subjects that are extremely important to your progress AND you know you need to revise in more detail (aim for 3)
- **Group B**- subjects that are extremely important for your progression but you are more confident with-so not as much revision needed (aim for 3)
- **Group C**-subjects that are less important OR you are very confident with so require less revision

SUBJECT	PRIORITY	HOUR TALLY	TOTAL

TOTAL NUMBER OF HOURS			

So you have a plan, now what?

- Focus on the task for each revision session. For example, **I am going to write out 15 examples of key vocabulary in German and get someone to test me. I will then relearn the ones I don't know...** rather than I am going to revise German for 15 minutes
- **Mix it up** -try out different types of revision to suit what you are trying to learn
- Don't forget your **rewards/treats** when you have completed part of your plan
- **Tick off** each bit that you complete
- **Stick to the plan!!!**
